Description

This remarkable Impressionist stitched canvas is the beautiful, intimate work of the Artist's Workshop which immortalizes the world of his daily life in this portrait on canvas painted in oil. This work from the end of the 19th century is successful in the atmosphere it gives off, a simple universe where the green enameled cast iron stove is the center of life: we eat there as much as we heat ourselves there while painting. that by sculpting in a universe with diaphane light; a charming painting, well framed and in good condition and very decorative with its beautiful presence
