Description

Early model of microscope manufactured by the Swiss optical instrument manufacturers Thury & Amey bearing the serial number 119, dating from the end of the 19th century. Thury & Amey are, with the Société Générale d'instruments de physique et de métro, the best Swiss manufacturer of microscopes from the end of the 19th century and the beginning of the 20th century. This microscope is a model from the beginning of their production with the typical shape of its foot and its stem. This is a medium model microscope. He has kept two eyepieces 2 and 3 with the initials "T&A" and a Nachet number 3 lens. Everything can be stored in its original walnut box. An unusual signature and an early model. The box measures: 16.5×17.5x23cm; the microscope approximately
