Description

This pair of antique French Jumeau fashion dolls is in really good shape.

Both dolls have a perfect bisque head (no chip, no hairline, no restoration). They have stationary enamel eyes, brown for the boy, blue for the girl.

Both have their original blond mohair wigs and pates. They have their original leather bodies with mitten hands, also in good condition, marked with the Jumeau Médaille d'or Paris blue stamp!

The clothes are original, sewn onto the dolls.

They are not new, but have survived these many years without too much damage.

They are typical Breton costumes!

This pair comes with this charming carved wooden Breton wheelbarrow!
