Superb two-layer agate cameo in very high relief representing the profile of Juno or Hera facing right.

Superb glyptic work, the sculpture is magnificent and deep.
The goddess is wearing a veil and a diadem, her hair is wavy and falls towards her shoulders.
The face is charming and smiling. The profile is in beige agate standing out against a background of zoned agate in gray and brown tones.
A red line underlines the veil of the goddess.
This cameo is mounted as a brooch in a very elaborate gold setting with a double frame with floral decoration formerly partly enameled.
