Description

Imposing pair of Emmanuelle or "pomare" Kok armchairs, circa 1970. Of a particularly rare size, this is the very top of the range of rattan armchairs, two-tone, bamboo frames, volute armrests. These two authentic pieces from the 1970s have survived the decades of slight accidents very well, under one armrest small unhooking, one of the armrests has lost a small fixing, The ribbon along the base of one of the armchairs is damaged, These accidents are very little visible, seats, backs, bases and base in perfect condition, very slight discolorations
