Beautiful early twentieth century globe from around 1910 by G.Thomas éditeur Paris

The globe has a beautiful blackened wooden base with beautiful turning. Signs of aging.

Terrestrial globe published by G. Thomas éditeur Paris in the early 1900s. Very good state of conservation. Height 58 cm, sphere diameter 30 cm. base 20 cm-

G. Thomas was a Parisian globe maker of the late 19th century; at the beginning of the 20th century it probably entered into a partnership with the Girard & Barrère company, which in fact began producing globes under the name of Girard, Barrère et Thomas. The firm Girard & Barrère had also produced Forest globes in Rue de Buci, the same address used at the time by J. Forest, another famous Paris globe maker.
