Depth : de la fontaine 12 cm, du bassin 30 cm

Description

We present for sale this pretty pewter fountain, signed by a Lyon pewter potter PISSAVY with cut sides, three pieces in good condition. The polylobed basin with two handles for the very typical 18th century grip. It has its original brass tap and above all it is very well hallmarked. We feel the quality on this object... Certainly a high silver content in the mixture. Very well preserved object. (E24)
