### Description

Important mantelpiece, very decorative and romantic, including a clock and two cassolettes. Scene of a young girl playing the violin and a cupid holding the score. This large clock is accompanied by two cassolettes: a sign of quality, the set is placed on griotte marble (very rare and very expensive). The movement is complete and has its key, it stops after a few minutes, it would need cleaning. Good original condition, the patina is a little worn in places dusted with a cloth ...
