15th Century Harness Pendant: Four Leaf Clover

400 EUR

Period : Before 16th century

Condition : Très bon état

Material : Bronze

Description

Very beautiful gilded bronze harness pendant representing a four-leaf clover.15th century.11.44 g.40 x 33 mm.This format could also have been used for dog vervelles (unlike those used for falcons) but the motif and symbolism of the clover seem to us more suited to a rider.Very good condition with a large part of its gilding. Rare motif.
