Description

Beautiful and large bronze dish with pine cone decoration by Leroyer. Really a very pretty model for this tray in high relief with decoration of pine cones and their needles on either side of the piece. In the purest art nouveau style, very beautiful finesse of chiseling. Note the handles in the shape of branches, the striking realism and on the original patina in very good condition. Piece signed by the famous bronzier, well referenced, 44 cm long and 22 cm wide, circa 1900. A very beautiful art nouveau connecting rod, perfect and very realistic, to place on a pretty piece of furniture!
