Period : 18th century

Condition : Bon état

Material : Stone

Width : 37 cm

Description

Octagonal sundial in thick slate that has already been installed, see the back for traces of cement. Beautiful slate carving work with a coat of arms that has probably been erased. A finely engraved and decorated slate sundial, with sobriety.

The stylus or gnomon or the shadow holder is not original of course but does not detract from the inherent charm of this object.

A beautiful large slate sundial.

Dimensions:

37 cm by 37 cm with a nice thickness.
