Description

Whimsical and joyful inspiration for this rare and very original chandelier with an emblematic design from the 40s, in wrought iron and sheet metal painted in white and gold.Very studied volutes and roundness accompany this 7-light suspension, the last one, in the center, existing only to highlight and illuminate... the chandelier itself!The 6 false peripheral candles in painted wood resting on thick clear glass discs are reminiscent of certain creations of the famous Maison Genêt & Michon, and intensify the diffusion of light....Also note the golden ball in the center of the suspension chain, and the golden knots also under the central basin, absolutely decorative!The electrification, previously redone, is fully functional, all the sockets (B22, with bayonets), are supplied!! (I just lacked bulbs to
