

Designer Coffee Table - Master Cabinetmaking Furniture -

390 EUR

Signature : Clément LECCELLIER

Period : 20th century

Condition : Parfait état

Material : Solid wood

Description

Modern art - Design - Signed and dated furniture

We present to you a rare piece of master cabinetmaking furniture made in 2016 by Clément LECCELLIER, a cabinetmaker in Eure.

This coffee table with double tops and two drawers is made of solid ash (a robust, dense and light wood) for the legs and ash veneer for the top. The drawers are assembled in dovetails, beveled chamfers: a work of great quality and great precision! The design is timeless: its angular lines are reminiscent of high-end Scandinavian furniture, while the geometric red leather covering completely integrated into the furniture takes up the codes of art deco. This piece of furniture, entirely handmade, required several dozen hours of work! Dimensions: 90 (L) x 60

(D) x 45 (H) cm Not to be missed!
