An Impressive Pair Of Baluster Pricket Candlesticks In Bronze Circa 17th Century

1 200 EUR

Period : 17th century

Condition : Très bon état

Material : Bronze

Width : 13

Height : 36

Description

This impressive pair of brass pricket candlesticks were cast in separate parts, turned and joined together. On a circular base, with characteristic multi-baluster stem, circular drip pan and ending in a larger pricket. The shape of these candlesticks is typical for the Baroque period suggesting a date in the first quarter of the 17th Century. They were most likely cast in the Netherlands known for its brass foundries during the 16th and 17th Centuries.Dimensions: Height: 14 in (36 cm) Width: 5 in (13 cm)
