### Description

Burgundy Trough

2 Trays

Period: 16th or 17th century

It is difficult to precisely date this type of object common on farms since the Middle Ages.

To be on the safe side, we prefer to give it the 16th or 17th century, but this trough may have been made one or two centuries earlier.

The wear of the stone at the neck of the animals feeding there suggests several centuries of use.

Beautiful ochre patina
