### Description

Burgundy Trough 2 Trays  
Period: 16th or 17th century  
It is difficult to precisely date this type of object common on farms since the Middle Ages. To be on the safe side, we prefer to give it the 16th or 17th century, but this trough may have been made one or two centuries earlier. The wear of the stone at the neck of the animals feeding there suggests several centuries of use. Beautiful ochre patina  
Origin: Region of the Chatillon sur Seine region  
Limestone  
Perfect condition  
Length: 2.50 m  
Width: 45 cm  
Height: 26 cm  
Deliverable by our carrier on estimate. Very careful transport due to the fragility of the piece during handling.
