Description

Very pretty elephant vase by Pierre D'Avesn. A great classic for this well-referenced elephant vase. A typical art-deco treatment with these stylized elephants in the jungle in a thick molded opaline glass. Ivory-colored painted copy for this truly magnificent rendering. Very aesthetic and fits perfectly into the most modern interiors. Height: 22.5 cm, we can still guess the mold signature under the vase but this model is clearly referenced. Pierre D'Avesn worked at Daum as artistic director during the art-deco period, he created many very pretty pieces such as this vase. Around 1930. An art-deco must
