

## Movado Quartz Watch

680 EUR

Period : 20th century

Condition : Parfait état

Material : Metal

Diameter : 4 cm

Description
-------------

We present this hyper modern watch in its lines with its papers and its box (box). It was purchased in Geneva on July 16, 2020, it is a little over four years old and has been worn very little given the condition of the dial. It works perfectly, it has certainly been worn a little because one or two links have been removed, they are delivered with it. Condition like new. Weight 101 gr (E24)
