Description

Pretty large bowl with smooth sides by Charles Schneider. Beautiful piece, typical of the art-deco period with 16 small fins entirely cleared with acid. The granite effect that is rendered contrasts with the shine of smooth sides. It reflects the light particularly well. Note this pretty yellow powder in the glass and this grooved foot called "Venetian". 35 cm in diameter and 14 cm in height, perfect condition, signed on the foot, well referenced. Beautiful art-deco piece, beautiful colors! To place on a pretty table.
