Depth : 53 cm (20,87 in)

Description

French enfilade in contemporary solid cherry This furniture opens with three doors and three drawers. The drawers are called "à doucine" and can be used to store sets of cutlery. They are mounted in a dovetail ensuring perfect strength. This is how they can be opened daily and contain many objects. They slide perfectly. The doors once opened let a shelf appear. The four racks allow to position the shelf at the desired height, to design storage adapted to needs. It is possible to store dishes or laundry since this shelf has been cleaned thanks to a biological preventive treatment thus avoiding any smell therefore entirely natural. Doors are made of flat panels delimited by « plates-bandes ». The keys and locks are working. The entrances are heart-shaped and made of brass. The back of the furniture is

made of solid wood panels so very resistant. The base of the furniture rests on four very stable feet. The feet are called "pistolet feet". The top of the furniture is a solid wood tray delimited by a molding called "beak corbin". The furniture is made from quality materials and built using ancient techniques: tenons and mortises weld the wood pieces together and reinforce strength. This piece of furniture has been revamped in white antique finish. This enfilade charms us by its large proportions, its bright appearance and contemporary lines. Practical storage solution in a living room, in a kitchen, this furniture is functional, in perfect condition, with just the right proportions. It will naturally find its place in our current homes. You will highlight it by playing with its lines. Trying it is adopting it!
