Description

Introducing a Flam & Luce Lighting Set for Roche Bobois

Here is a unique lighting set including a large floor lamp and a pair of table lamps, designed by Flam & Luce for Roche Bobois.

Likely dating from the 1960s-1970s, these pieces embody the elegance of the design of the time and are distinguished by the use of noble materials and a sophisticated vintage aesthetic.

Large Floor Lamp

The large floor lamp is a centerpiece of this set, imposing and refined.

Materials: The base of the floor lamp is made of

exotic wood, most likely rosewood or a similar species.

This type of wood, appreciated for its strength and rich grain, adds a touch of natural elegance to the whole.

The exotic wood used is finely crafted, with a smooth and neat finish that testifies to the artisanal quality of the piece.

- Lampshade: The lampshade is made of ecru-colored fabric, a soft and neutral shade that allows the light to diffuse in a pleasant and warm way.

Its geometric shape brings a subtle modernity, matching the simple and elegant design of the base.

Ecru is a wise choice, as it easily fits into different interior styles while enhancing the vintage aesthetic of the lamp.

- Dimensions: With its imposing height, this floor lamp is designed to be a focal point in a room.

It is particularly suitable for large spaces such as living rooms or libraries, where it can both illuminate and decorate.

Its solid base ensures stability, while its slender and refined shape visually lightens the structure.

Pair of Lamps

The pair of lamps that accompany the floor lamp perfectly completes this set with a remarkable aesthetic coherence.

- Materials: The feet of the two table lamps are also made of exotic wood, ensuring visual continuity with the floor lamp.

The quality of the wood is similar, which gives an impression of unity throughout the rooms.

These lamps, although smaller than the floor lamp, retain an elegant presence thanks to the use of this noble material.

- Lampshade: As with the floor lamp, the lampshades are made of ecru fabric.

The geometric shape is slightly smaller but just as sophisticated, offering a soft and pleasant light.

The ecru color allows a harmonious diffusion of light, ideal for creating a cozy and warm atmosphere.

- Dimensions: More compact, these lamps are perfect for placing on bedside tables, sideboards or desks.

Their more modest size makes them versatile, allowing them to be integrated into smaller spaces without cluttering the environment. They bring a discreet but effective touch of light, while adding a chic vintage note to the room.

Distinctive Features

The Flam & Luce lighting set for Roche Bobois is characterized by a bold design and carefully selected materials, typical of the style of the 1960s and 1970s.

- Vintage Style: These lighting fixtures perfectly reflect the trends of the time, where geometric shapes and natural materials, such as exotic wood, were in the spotlight.

The retro aesthetic, with a mix of simplicity and modernity, is today highly sought after by lovers of vintage design. The influence of the 60s and 70s is reflected in clean lines and subtle experimentation with proportions.

- Manufacturing Quality: The collaboration between Flam & Luce and Roche Bobois is a guarantee of quality.

Both brands are known for their attention to detail and their requirement in the choice of materials. Each piece of this set has been manufactured with particular care, both in terms of assembly and finishes.

The robustness of the wood and the delicacy of the lampshades are evidence of this quality of manufacture.

- State of Conservation: Despite the decades that have passed since their creation, these lights have been preserved in exceptional condition. Few signs of wear are visible, which makes them all the more precious.

The wood retains its natural richness, while the ecru fabric lampshades have not lost their shine, ensuring an intact aesthetic quality.

This set also bears witness to the know-how of the designers of the time, who managed to combine functionality and aesthetics in everyday objects.
