

Carriage Lanterns, Brass And Burl. Wick. Spain

460 EUR

Period : 20th century

Condition : Bon état

Material : Brass

Width : 15

Height : 43

Depth : 17

Description

Elegant pair of carriage lanterns, made of brass with supports to be fixed. They have a rod that fits into the support, a part that houses the light, with front and side protections. At the back, traces of red signals on the glass of the light. Rear door with access to the lighting. This lighting consists of a metal vase containing a wick or torch to light. Upper part in the shape of a dome. Ideal for outdoor or indoor lighting thanks to their design. They can be easily electrified.

Dimensions: height 43 cm, width 15 cm, depth 17 cm
