

19th Century Forged Railings

900 EUR

Period : 19th century

Condition : Très bon état

Material : Wrought iron

Length : 2 x 139 cm

Height : 85

Depth : 35 mm

Description

Pair of 19th century forged railings, in good condition, decorated with inverted volutes forming hearts on ringed bars. Their handrails are molded. Two 139 cm elements can be assembled to obtain a length of 253 cm, while maintaining the regularity of the patterns. The height of the body is 80 cm, the feet can be extended to obtain a finished height of 91 cm and serve as sealing legs. A re-measurement is therefore possible on estimate. The section of the frames is 20 mm² and that of the bars is 15 mm². You can visit our website: www.claudeaugustin.com
