

## Special Haberdashery: Nestable Turned Walnut Snuff Eggs, Early 20th Century

75 EUR

Period : 20th century

Condition : Bon état

Material : Solid wood

Length : 4 cm

Width : 2.2 cm

### Description

One egg can hide another! Indeed, here are two eggs, one of which fits inside the other. They were once used for sewing and more precisely for darning the fingertips of gloves, an accessory that everyone who respected themselves then wore without fail. Of course, only the large egg opens by unscrewing, its thread is a little tired but it still works.
