Description

This splendid and refined cherry working table, of Tuscan manufacture from the early 19th century, is a unique piece that can also be used as a small desk. Its ancient function was that of a work table, as demonstrated by the presence of internal shelves and small drawers designed to contain the tools necessary for embroidery. Expertly crafted, the coffee table also features elegantly decorated ebonized wood feet, adding further sophistication to its design. The warm shade of cherry, combined with the finishes with attention to the smallest details, creates an appearance of great elegance and style. Finally, with its delicate workmanship, it can enrich any environment, from classic to contemporary styles.
