Description

This table reminds me of a Guariche production, without being certain. It is a wooden top covered with cream lacquered metal with tubular legs typical of the 60s. This is a technique of folding sheet metal on wood on which 4 tubular legs typical of the 60s with small, slightly round feet have been placed. For the condition, note slight traces of wear. Everything is in its original condition, natural, as can be appreciated. Please note, our furniture is sold unrestored, unprepared, you have to accept defects due to age. We will not deliver by post for this type of item that is too fragile but we work with carriers, please contact us for a quote. This table is perfect for informed individuals, dealers, collectors. Sold as is. Please provide detailed photos. Photos are an integral part of the description. Dimensions: Height: 43
