Description

HAUTE EPOQUE,
15th century

Late XVth cty lovely and heavy turned bronze or brass candlestick

Binet with 2 square and rectangular lights, shaft with 3 balls including the central one wider. The base, presenting several dents from use has an accident on its edge, which don't prevent the charm of this very beautiful tableware element. I chose not to have it restored because I find it very charming and present as well, with a very beautiful patina.

Dimensions:

14,5cm diameter for the base
