150 EUR

Signature : Baccarat

Period : 19th century

Condition : Bon état

Material : Crystal

Description

Superb set of four pieces of a rare late 19th century toilet service, in crystal from Maison Baccarat, "Bambou Tors" model, with twisted silver-plated metal cap covers.

Three perfume bottles and a powder or soap box make up this beautiful set.

They are in very good general condition, with some marks of time. Note mainly: 1 small chip on the top edge of a twist on the medium bottle, another, minimal, at the base of the smallest bottle, some micro-chips on the edge of the bases and on 1 crystal stopper, and a slight desilvering on the top of the silver-plated metal caps. The crystal stopper of the smallest bottle is missing. These objects have been used and have already had a life, which is also what gives them charm and authenticity!
