Description

COD 11148 English living room table from the first half of the 20th century. Octagonal shaped furniture with a richly inlaid top with floral and geometric decorations in walnut, burl, maple, mahogany and fruitwood of great quality. Table supported by four solid carved legs resting on wheels to facilitate movement around the house. Furniture complete with a second small shelf in the lower part (see photo). Table of pleasant decoration and good service, for antique dealers and interior decorators. It has been restored on a wooden element that connects the leg to the lower support surface (see photo). Structurally sound and solid, overall in good condition.As each of our items will be accompanied by a certificate of authenticity and guarantee as well as photographic documentation.
