Brown And Black Leather Coin Purse With Silver Appliques

140 EUR

Period : 19th century
Condition : Très bon état
Material : Leather
Length : 8 cm
Width : 5 cm

Description

Here is a model that stands out, collectors of purses and purses know what I'm talking about. Indeed, here is one made of two different leathers, black and brown, the latter has an embossed shaping composed of diamonds. It is then decorated with different silver applications assembled so that this small purse looks like a suitcase or travel box. Its interior is in royal blue silk in good condition.
