

Two-seater Oak Sled, 1930s, 106 Cm

70 EUR

Period : 20th century

Condition : Bon état

Material : Solid wood

Length : 105,5 cm

Description

Could this be Santa's sled?... What is certain is that it was made to last, in the 1930s. Made of solid oak, with mortise and tenon joints, and reinforced with steel hoops, it has participated in many pirouettes in the powder, and could still do so, despite a small "bump" on the end of a slat. It only dreams of being used again, in the snow, or in a living room as a coffee table support, or simply as a useful decoration, shoe bench, plant stand.... Good general condition, one accident previously repaired, old paint. Length 105.5 cm, width 37 cm, height 22 cm, weight approximately 7/8 kg. Shipping possible in metropolitan France by large volume colissimo, EUR30
