Description

Large pair of gilded bronze candelabra with cherubs modeled in the center in the round, one with a drape on the sides and one that also covers the head. The back is worked with a large vegetal motif decoration and from the center rises a stem that in the final part supports the single-flame in the shape of a flower. The whole is supported by a base modeled naturalistically always with vegetal motifs and in the lower part ends with a tripod base with rocaille curls, one of which depicts a zoomorphic "lion's head" mask.PERIOD France late 19th centuryDIMENSIONS H. cm 35.5 x W cm 15CONDITIONS Excellent state of conservation
