Depth : poids brut : 12,35 grs

Description

Beautiful effect for this dragonfly-shaped pendant in silver, hallmark 925/1000 and vermeil, with mobile vermeil wings set with more than 50 small yellow sapphires and peridot eyes. The body of the dragonfly is composed of 6 black opals of approximately 4k with green, red and iridescent reflections of the most beautiful effect in the light. This jewel is adaptable as a brooch thanks to the two invisible fixing methods made for these two uses of pendant and brooch. The gross weight of this jewel is 12.35 gr, with a height of 5 cm, a width of 6.5 cm and a thickness of 1 cm. It will have as much effect on the lapel of a jacket as worn as a pendant on a neckline. Original like all animal jewelry, it will be very appreciated by amateurs, collectors and lovers of jewelry. Sold without the presentation chain. Very good
