Description

Rare shepherd's bench, Alpine work, typical of mountain furniture. Very rustic, in natural wood, and in its used condition: some repairs and reinforcements, in particular at the bottom of a foot, at the level of the seat and the shelf, see photos. These consolidations are part of the life of the bench, they do not harm its solidity and its functional condition. Period 19th century. Beautiful original patina. Dimensions of the seat: H 44 x W 164 cm x D 49 cm
