Description
-------------

Beautiful tea and coffee service by the famous Ravinet d'Enfert house in silver plated metal and rosewood. Typical of the art deco period, this very beautiful set is classically composed of 2 jugs, a milk jug and a sugar bowl. The handles and handles are in rosewood. Beautiful quality with these grooves at the corners and this very geometric aspect very characteristic of the period. Very good condition, no dents. Each piece is signed under the base, note that the tray is signed Ercuis and numbered. Dimensions of the tray: 54.5 cm by 35 cm (other dimensions on request). Sublime on a pretty piece of furniture NB: the Ravinet d'Enfert house was founded in 1882 by Louis Ravinet (1854-1925) and Charles d'Enfert (1865-1860) in the heart of the Marais in Paris
