Height : tête de bague: 3,9 mm au plus haut

Description

Ring in 750/°° yellow and white gold (18 KT, eagle's head hallmark) with an aesthetic reminiscent of the Tank rings of the 1940s. Asymmetrical, it offers a growing volume forming a movement, like a wave, which hugs the finger. Its volume is distributed so that the ring head is formed by a white gold ring, inserting into the other in yellow gold, evoking the buckle of a belt....It is decorated in its center with a white gold grain paving consisting of an old-cut diamond and eight-cut diamonds. A Tank ring aesthetic on a measured volume and easy to wear. Old cut diamond weight estimated at approximately 0.20 ct Total weight of 8/8 cut diamonds in paving estimated at approximately 0.30 ct Total weight of diamonds estimated at approximately 0.50 carat Gross weight: 9.32 g
