Description

Superb and rare Louis XVI style serving table on wheels, for Brasserie or restaurant, made in the 2nd half of the 20th century. This trolley was probably used to serve cheese or pastries but it is also possible to cut meat on the central perforated stainless steel part. The lid is made of plexiglass, the worktop is made of colored granite and the main structure is made of painted wood. The whole is in used condition but well preserved, I report a crack without impact on the front part of the granite and a missing finishing screw on one of the shelves in the lower part. Dimensions:
Maximum height: 1.12m
Granite top height:
Maximum width after the brass handles: 1.14m
Maximum depth: 71cm
