

Beautiful Culpeper Type C.1800 Microscope

1 480 EUR

Period : 18th century

Condition : Bon état

Material : Brass

Diameter : 8 cm

Height : 30 cm

Description

The circular base of the microscope has an orifice in its center where a flat mirror mounted on an adjustable bracket is engaged. From this base rise three S-shaped columns which support a shelf that is also circular. From this shelf extend three other small columns, also in the shape of an S, which support the body of the microscope in which the optical tube slides. The tube is adjusted by a rack. In good condition. Identical model, collection of scientific instruments of the Louvre Museum. Y Microscope Society of London
