Description

Italian Studio Made Cabinet Taupe-Brown
Mirrored with Bronze Opal Glass Stones

Italian 2-door mirrored sideboard in the style of
Roberto Giulio Rida.

Solid wooden body made of oak, veneered with
taupe-colored mirror glass - all edges are faceted.
Hand-cast thick opal glass stones (medallions) in
a rich bronze-brown are attached to the lower
third.

The back of these stones is mirrored, so that the
glass of the stones appears particularly deep and
valuable

and it is not visible how they are attached.

The back of the furniture is fitted with a steel
plate to balance the weight of the stones at the
front.

Prien am Chiemsee 83209

The doors are attached to the body with
brass-plated steel hinges.

Key and key guide made of solid brass and
conical brass legs.

The interior is painted cream and fitted with a
glass top, but can also be finished in natural oak.

The object is characterized by a very high quality
of workmanship and an effective design.

The production is very elaborate, each object is
individually made to customer specifications.

The object can also be made in other sizes and
colors.

Production time 4-5 weeks
