

Stationmaster's Lantern Mounted As A Clock

320 EUR

Period : 19th century

Condition : Etat d'usage

Material : Copper

Length : 29

Height : 56

Depth : 19

Description

Old station master's lantern mounted as a clock.

The lantern, which has a reservoir, works with acetylene carbide, which forms a combustible gas when it comes into contact with water.

Beautifully made of brass, iron and copper. There is a key to wind the clock movement. Beautiful unusual object.
