### Description

Elegant hard stone fountain, in perfect condition, partly carved in the 19th century, the oldest basin of which dates from the 18th century. Its neoclassical pediment equipped with a bronze mouth, with lateral scrolls, topped with a diamond-point capital, rests on a restored base. Two seal-holder bars stapled to the latter guarantee the maintenance of the basin equipped with a plug drain also in bronze. Two overflows cut into the back of the basin allow easy operation in a closed circuit, see our last photo. The height of the basin on its base is 70 cm. The dimensions of the surface-mounted base are 94 cm long, 70 cm high and 15 cm deep. You can visit our site: [www.claudeaugustin.com](http://www.claudeaugustin.com)
