Description

This Aubusson verdure, based on a 16th century model, is the result of an old-fashioned weaving, with a 20th century texture, in wool and linen. On a wooded and very flowery background, three birds stand out evolving "at the water's edge"... a river. Flowery frame, surrounded by two green borders. Original and guarantee label signed Robert Four, sewn on the lining. Beautiful decorative value for this tapestry in perfect condition.
