

## Portrait Of A Seamstress In The 19th Century

750 EUR

Period : 19th century

Condition : Très bon état

Material : Oil painting

Width : 56

Height : 66

### Description

Interesting portrait, very explicit about the profession of its subject. Her shawl is held by a sewing pin and her basket shows objects to "patch up" Provençal baths which would suit her well, because this woman could well be Provençal. The shawl, the cross on a ribbon and the piped charlotte. The canvas is blank, studded on a rudimentary but keyed frame. The canvas is quite thick, close to an 18th century frame. Easy shipping
