Diameter : 18 centimètres pour la roue

Height : 35 centimètres au plus haut

### Description

A bronze reproduction spinning wheel...  
Polished but left in its original state...!  
FRENCH origin...  
For me, a school end...  
Or maybe even a masterpiece from the end of the  
journeyman trade...  
From the 1940s/50s...  
In perfect condition, just some oxidation due to  
the passage of time...  
If you want to polish it, it will be easy...!  
All the parts are unscrewed from each other...  
The wheel and the spool are functional...  
The wheel is operated by a small crank...  
The large rod, not knowing what it is for, I put it  
aside...  
It is astonishing and of beautiful quality...!

Weight... 4 kilos 679 gr
