Large Window Panel - Geometric Decor Curtain With Wide Fringes - Art Deco Period

180 EUR

Period : 20th century

Condition : Parfait état

Material : Linen

Description

Superb and large panel in mechanical embroidery with geometric decoration on fine cotton voile (circa 1930 - 1935). This curtain embroidered with rayon thread is in a color between off-white and very light cream. Its lower edge has a fringed rayon trim, thus allowing the panel to be weighed down while adding a quality and refined finish.

The upper edge is lined with a twill cotton ribbon, useful for attaching the hanging rings. The whole is in excellent condition. It does not present any fragility under tension. Old linen washed and ironed.? Buy this item on our website? Additional informations and photos? Online payments ?
