

Japanese Carved Bone Dagger (tanto). Signed. Meiji Period. End Of 19th Century.

800 EUR

Period : 19th century

Condition : En l'etat

Material : Bone

Length : 365mm

Description

The dagger represents the body of a dragon, the head serves as a handle and the body as a scabbard. Characters, plants and clouds are sculpted all along the body of the dragon. Mother-of-pearl beads are inlaid. On one side the artist has engraved his signature in a rectangular cartouche. The dagger is made of bone. Japanese work from the Meiji period. End of the 19th century. Good general condition, complete. A mother-of-pearl inlay is missing, the bone is split in places, all these accidents are usual and are visible in the photos. Length: 365mm
