Description

Quilted bedspread in printed cotton piqué (19th century). Both sides display a romantic decor composed of large bouquets of peonies in soft tones on a cream-colored background for the main side, as for the other side we can observe a decor of flower baskets, sprigs tied with a thin blue ribbon and seedlings on the same background color as the front side. The whole is of beautiful quality, with a soft and pleasant touch. Cleaned piece. Condition: Two slight, barely noticeable glimmers are to be noted on the reverse side (the side with the blue ribbon). These marks are quite discreet (see photos).? Buy this item on our website?
