Description

This daisy ring in 750/°° white gold (18 KT, eagle's head hallmark) features numerous brilliant-cut diamonds including a center, old cut, estimated at 1.00 carat. The distribution of the brilliant-cut diamonds in the surround and the effect of curves and points caused create the aesthetic of a snowflake and give this jewel a dynamic volume. The basket made of wires corresponds to the vintage rings of the 60s and brings grace and lightness to this jewel. Its claws are both discreet, since we only perceive the diamonds of the paving, and opulent, punctuating the edge to accentuate the snowflake effect. The general brilliance is supported by a shoulder also set with diamonds. An extremely luminous ring. Estimated central diamond weight of approximately 1.00 ct Total weight of
