### Description

Very funny and unique, here is both a photo frame and a photo album. Indeed, a small latch allows the frame to be released and tilted forward, leaving room for the flaps to unfold, these flaps being photo cardboards such as were made for albums in the 19th century. So, this frame is also an album. Ideal for a parent to bring together his or her whole family. Possibility of putting 12 photos in total for "business card" formats. Dimensions of the oval 5.5 x 9 cm. Note an old restoration of the foot which has been reinforced, see photo and which is not really annoying.
