Description

Lenci is a company founded in 1919, in Turin, by Enrico Scavini. Initially it was involved in the production of dolls, furniture and furnishings for children, but also of a particular fabric known today as 'pannolenci'. In 1927, the company added a line of ceramic figures and objects to its production.

The proposed object depicts a little girl holding a doll and a little boy with a teddy bear, sitting close together on a stone wall, probably intent on singing. The pictorial decoration is very concise: flat, even colour fields with small polka dots on a white background in the dress of the little girl and the doll. The faces, on the contrary, are well detailed: large eyes, emphasised by long eyelashes and red cheeks.

The overall dimensions are 13.8x12.5x5.7 cm,
